## 6 Week Trial scheme of work

### How to use this scheme of work?

This scheme of work has been designed for your students by our expert examiners to take weekly units across a range of topics. In this booklet, you'll find **6 units of work**, each including 2 modules mainly from the reading section of the SchoolOnline platform.

To utilise this within your trial you can **add all of the questions in each unit to one list** and then **assign your class or focus group the list** as an assignment for them to complete. In doing so you will be able to track who has completed the work, their progress and where their challenges may be.

### Finding the modules

- Each module has a unique title which will be listed under the unit in this booklet.
- You can find these modules either by navigating the English section under the **All Content** heading on the main menu at the top of your page.
- Alternatively, you can add each module to a list by **using the Search Function**.
- Click the magnifying glass in the top right-hand corner of the page and enter the question code from the units listed on the next pages to find the corresponding question.

Ensure the toggle here is set to the correct subject for your search

### Saving to My Lists

- Once you have found the question you can then select the question using the **multi-select button** and **add it to a list via the orange 'save to My Lists' button**.
- Create a list for each unit which you can then assign to your class for their homework or classwork.

# 6 Week Units

These modules are taken mostly from the Reading course within the SchoolOnline Classroom platform. Any modules from the reading course will have a tutorial video, interactive consolidation quiz and an extra learn more activity, such as a crossword, wordsearch or close exercise.

**We recommend for each unit asking your students to work through it in this order and also having a pen and paper to make notes on the video content.**
