Dorset Virtual School

Improving the education and life chances for Children in Care

Dorset Virtual School exists to improve the education and life chances of Children in Care.

When we first met with Richard Osment, Virtual School Data and Assessment Specialist Teacher at Dorset Virtual School, he was excited by the opportunities offered by SchoolOnline to offer truly personalised tuition that children could access in their own time, and carers could use to support their Children in Care.

Dorset Virtual School has learners ranging in age from 3 to 18 years old, so needed a solution to support a wide range of educational needs.

Dorset Virtual School Use Cases

- ✓ KS2
- ✓ KS4
- ✓ At home learning
- ✓ 1:1 staff led learning

“ **SchoolOnline offers a great alternative to tuition.**

- Richard Osment, Dorset Virtual School, reflects on SchoolOnline

“ **This is so valuable for learners who both need a little extra input and those who need a different approach to learning.**

Why did you choose SchoolOnline?

We've been looking for interactive English resources for a long time, SchoolOnline have provided this, and the learners find it very simple to access

How has using SchoolOnline impacted Dorset Virtual School's work?

SchoolOnline offers a great alternative to tuition and it's always there for reference, the learners can rewatch videos and attempt the questions as many times as they wish.

SchoolOnline have also provided options for SATS that we have not had before, this is so valuable for learners who both need a little extra input and those who need a different approach to learning.

Independent learning & revision Boost grades & confidence

Our powerful EdTech platform has combined all the benefits of private tuition into a highly interactive, insight-driven platform based around a core library of 1300+ examiner-delivered bitesize tuition videos.

We empower students to build confidence, independence and ability through personalised tuition support, that will carry through into the classroom, the exam hall, and beyond.

Created by teachers, for teachers, our content is quality assured giving you hundreds of hours of content at your fingertips to support your students' individual and unique needs.

"This is so valuable for learners who both need a little extra input and those who need a different approach to learning."

Richard Osment, Dorset Virtual School,

SchoolOnline for Virtual Schools

SchoolOnline is an ideal solution for Virtual Schools to support their Children in Care with improving their confidence, skills and outcomes in English and Maths.

The virtual schools we work with use it in a number of scenarios across ages 9-18.

- Providing consistency in support across settings for Children in Care.
- Supporting young people not in full-time education.
- Valuable tool for carers, removing the worry that they might not be able to support their young person because they lack the relevant knowledge in SATs or GCSEs.
- Detailed progress reporting for individual children.
