Quick Start Guide

1. Logging in

To log in, head to schoolonline.co.uk/login. Choose whether you are logging in with an email address or if you are a child in a family account, logging in with your username instead of email.

2. Getting Started - Maths Courses

Our courses have been designed by examiners and senior UK educators to help you revise and stay on top of your schoolwork. Simply Head to "Independent Learning" and then choose "Courses". Here you can sign up to a course that's right for you and work your way through the weekly units. Remember, little and often is best!

Important! Remember, to access the tuition video, you need to try the question first! If you don't know the answer, just leave it blank and click "Next"

Question Model answer Video

Question ID

Bronwin works in a restaurant.

The table gives her rates of pay.

Day	Rate of Pay
Monday to Friday	£8.40 per hour
Weekend	£1.20 per hour

Bronwin worked for a total of 20 hours last week. She worked 8 of these 20 hours at the weekend.

Show that Bronwin was paid less than £200 last week.

Show your Working using this interactive window.

3. Learning by Topic

If you have a specific topic that you know you need help in, you can head to Independent Learning -> Video Topics -> Maths or English and select the topic you want to work on,

Courses Video Topics Past Papers My Lists

Maths English

Higher Foundation GCSE

1. Number

Estimating (5)	Fraction Problems (6)
Fractions without a Calculator (1)	Fractions, Decimals and Percentages (16)
LCM and HCF (3)	Mean, Median, Mode and Range (9)

Once you've chosen your topic, simply work through all the past paper questions under that topic, making sure to do the Booster Questions (if you're KS2) to reinforce your learning.

4. Getting Started - English

Our English Skills videos are designed to be worked through one by one in the order presented. Simply start at the top, watch the video, and try the quiz which will reinforce your learning. These are the key skills you need to master to do really well in your English exams!

Higher & Foundation

GCSE Reading

1. Finding Information	2. Identifying Key Ideas
3. Understanding Explicit Information and Ideas	4. Understanding Implicit Information and Ideas
5. How to Respond to a Synthesis Question	6. Answering the Question
7. How to Get Precise Detail Into Your Reading Response	8. Identifying Key Ideas

5. My Lists

Don't forget to add questions you want to come back to to My Lists - super easy with one click! This is a great way to build up a last minute final revision plan, or consolidate questions you need more help with.

Your Dashboard

Once you've gotten started on SchoolOnline, your Dashboard will become your go-to starting point, keeping all your work in one place. Here you will find your Lists (if you've started using this) as well as your Courses, Progress Tracking, and Past Paper scores.

The dashboard is titled "DASHBOARD INDEPENDENT LEARNING" and shows the user "H_HOOLE@HOTMAIL.CO.UK".

Topics

Every question you answer is building your Topic Progress. Try to keep your dials in the green zone by clicking "Revise" on any of the topics you aren't sure of to head straight to more questions.

Past Papers

Everyone knows revising past papers is the very best way for you to prepare for upcoming exams. Our Past Papers are more though - you have a super experience examiner helping you with every single question.

When you're ready work through a full past paper to receive your score at the end.
